Prabowo's New Ministries: Challenges &

Larger Government → Propensity to be inefficient due to overlapping responsibilities

Slow progress on the need for adjustment, inter-coordination and accountability

Increased costs with investors facing too many desks to obtain permissions

..... Benefits

Political consensus making many political parties happy

Burden sharing to allow shared accountability

Specialization (extra focus)

Prabowo's Vision: Asta Cita (8 Aspirations)

Strengthen Pancasila ideology, democracy, and human rights

Enhance national defence and security systems, and promote self-reliance through food, energy, water security, Islamic economy, digital economy, green economy, and blue economy

Continue infrastructure development, create quality jobs, encourage entrepreneurship, foster creative & agromaritime industries through active cooperations

Fortify human resource development, science, technology, education, health, sports, gender equality, women-youth (Millennials & Gen Z) empowerment and people with disabilities

Maintain downstream processing and develop natural resource industries to increase domestic value adds

Build from villages and grassroots to foster economic growth, equitable distribution, and poverty eradication

Improve political, legal, and bureaucratic reforms, and enhance the fight against corruption, drugs, gambling, and smuggling

Promote harmony with the environment, nature, and culture, while fostering religious tolerance to achieve just and prosperous society

Prabowo's 8 Best Projects

Provide free lunches and milk in schools and religious boarding schools, along with nutritional support for toddlers and pregnant women

Organize free health check-ups, eradicate tuberculosis cases, and build fully equipped, high-quality hospitals in every district

Develop and boost agricultural productivity through village, regional, and national food storage systems

Build integrated superior schools in every district and renovate schools in need of repair

Continue and expand social welfare cards and business support cards to eradicate extreme poverty

Increase the salaries of civil servants (especially teachers, lecturers, healthcare workers, and advisors), military/police personnel, and state officials

Maintain rural and urban infrastructure development, direct cash assistance (BLT), and ensure the provision of affordable, well-sanitized housing for those in need

Establish the National Revenue Agency and increase the national revenue-to-GDP ratio to 23%

Prabowo's 17 Priority Programs

Achieve self-sufficiency in food, energy, and water

Improve the national revenue system

Reform politics, law, and bureaucracy

Prevent and combat corruption

Eradicate poverty

Prohibit and fight against drug abuse

Ensure healthcare by improving BPJS Health and providing affordable medicines

Strengthen education, science, and technology, along with digitalization

Enhance national defence and security while maintaining favorable international relations

Promote gender equality and protect the rights of women, children, and people with disabilities

Reinforce environmental preservation

Guarantee the availability of fertilizers, seeds, and pesticides directly to farmers

Develop high-quality, affordable housing with proper sanitation for rural and urban communities, particularly for the needy

Foster economic equity and amplify MSMEs through business credit programs and the construction of IKN and other innovative cities

Continue down-streaming and industrialization based on natural and maritime resources to create broad employment opportunities

Enforce religious harmony, freedom of worship, and the establishment as well as maintenance of places of worship

Preserve arts and culture, boost the creative economy, and raise sports achievements

THANK YOU
