## Technical Analysis Glossary

|                            |                                                                                                                                            |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| ATH                        | : <i>All-time high</i> . Harga tertinggi sepanjang masa                                                                                    |
| TP                         | : <i>Target Price</i> . Target harga (naik atau turun)                                                                                     |
| TTP                        | : <i>Theoretical Target Price</i> . Target harga teoritis (naik atau turun), biasanya didapatkan berdasarkan suatu pola harga tertentu     |
| Support                    | : Level harga di bawah, dimana berpotensi menahan penurunan lebih lanjut                                                                   |
| Resistance                 | : Level harga di atas, dimana berpotensi menahan kenaikan lebih lanjut                                                                     |
| Support Trendline (STL)    | : Garis trend yang berfungsi sebagai support, biasanya bagian dari Pattern                                                                 |
| Resistance Trendline (RTL) | : Garis trend yang berfungsi sebagai resistance. Biasanya bagian dari Pattern                                                              |
| Breakout                   | : Pergerakan harga naik menembus Resistance. Mengindikasikan Uptrend                                                                       |
| Breakdown                  | : Pergerakan harga turun menembus Support. Mengindikasikan Downtrend                                                                       |
| Throwback                  | : Penurunan paksa jangka pendek pasca Breakout. Maksimum penurunan menguji Support yang berasal dari Resistance yang baru saja di-Breakout |
| Pullback                   | : Kenaikan paksa jangka pendek pasca Breakdown. Maksimum kenaikan menguji Resistance yang berasal dari Support yang baru saja di-Breakdown |
| Technical Rebound          | : Kenaikan yang terjadi setelah harga menyentuh level Support                                                                              |
| Technical Correction       | : Koreksi yang terjadi setelah harga menyentuh level Resistance                                                                            |
| Bullish Continuation       | : Pergerakan yang mengindikasikan Uptrend sebelumnya akan berlanjut naik                                                                   |
| Bearish Continuation       | : Pergerakan yang mengindikasikan Downtrend sebelumnya akan berlanjut turun                                                                |
| Bullish Reversal           | : Pergerakan yang mengindikasikan perubahan Downtrend menjadi Uptrend                                                                      |
| Bearish Reversal           | : Pergerakan yang mengindikasikan perubahan Uptrend menjadi Downtrend                                                                      |
| Up Trendline               | : Support Diagonal ke arah atas yang menandakan pergerakan Uptrend                                                                         |
| Down Trendline             | : Resistance Diagonal ke arah bawah yang menandakan pergerakan Downtrend                                                                   |
| Up Channel                 | : Pola Uptrend yang dibatasi oleh Support dan Resistance sejajar                                                                           |
| Down Channel               | : Pola Downtrend yang dibatasi oleh Support dan Resistance sejajar                                                                         |
| Pattern                    | : Kelompok harga yang dapat dikenali berbentuk suatu pola                                                                                  |
| Flip/Pivot Level           | : Level harga yang menjadi titik kritis penentu pembalikan arah                                                                            |
| Day Trading                | : Strategi trading dengan Holding Period selama 1 hari sampai 3 hari                                                                       |
| Swing Trading              | : Strategi trading dengan Holding Period sampai 3 bulan                                                                                    |
| Bottom Fishing             | : Strategi trading dengan membeli saham yang telah turun cukup dalam                                                                       |
